MILWAUKEE RADIO AMATEURS' CLUB INC.
MINUTES:
October 3, 1968
Milwaukee School of Engineering

The meeting was called to order at 8:25 PM by President Travis Baird.

The minutes of the September meeting were read and approved.

W9CUW reported a current balance of $ 761.71 in the treasury. Membership renewals were being accepted.

W9VQD read a letter from Bill Kassulke, presently stationed in Vietnam, sending greetings to all. He also read ARRL bullitens #187 and #188.

New Club Members, David DeFebo and Steve Reyer, WA9VNJ, were introduced.

In response to a question from W9ZPV, a brief report was given on the present status of WATS, the Wisconsin Area Teleprinter Society, by W9ATK. He advised that the group has quite a number of pieces of equipment on hand, from Western Union. This includes tape gear and some strip and page printers. It was said that this equipment will be distributed first to those members who have no equipment, in order to encourage their activity in the teletype service on the ham bands.

Band reports were given by various members.

W9VQD reported that, at the last AREC meeting, amateur participation in Wisconsin weather warning activities was dsicussed. He suggested that the MRAC might like to take on, as a club project, the construction of anemometers. These could be used to provide the Weather Bureau with accurate wind reports and also as a means of wind information for the protection of one's own beam or tower. He described a recently published means of building such an instrument at minumum expense.

It was announced that an auction would be held at the November meeting.

The meeting was adjourned at 9;45 PM.

Walt Glish, W9YYW
Secretary
